

# OUR SERVICES

## Subsurface Consultants & Associates, LLC

Founded by Daniel J. Tearpock in 1988, Subsurface Consultants & Associates, LLC (SCA) provides consulting, training, and recruitment services to the energy industry.

### CONSULTING

SCA provides geoscience and petroleum engineering personnel as individuals or multi-disciplinary teams to supplement our client's activities in the energy industry. Our consultants have conducted assignments in over 50 countries and in virtually every major producing basin around the world.

Projects and studies that our consultants have worked include:

- Asset Optimization
- Field Development Planning
- Third-Party Due Diligence
- Business Advisory Services
- Asset/Portfolio Evaluation
- Prospect Evaluation and Maturation
- Post-Drilling Evaluation and Assessment
- Geomechanics & Pore Pressure Prediction
- Geothermal Services
- Well Planning
- Petrophysical Analysis
- Carbon Capture Utilization & Storage

### TRAINING

We provide subsurface training for energy industry professionals of all experience levels worldwide. Our instructors are industry-recognized experts in their fields offering courses across various disciplines. Beyond our standard portfolio, we design and deliver comprehensive training itineraries fully customized to meet our client's organizational needs and objectives.

Both in-person and live online courses are offered in the following disciplines:

- Geoscience
- Engineering
- Unconventional Reservoirs
- Energy Transition
- Formation Evaluation
- Multi-Disciplinary & Introductory
- Field Courses

### RECRUITMENT

In addition to contract assignments, we also place candidates into full-time positions. Our recruiting team is committed to understanding each client's unique requirements and is proficient in assessing candidates to meet those specific needs.
